MAQ Software

Delivering AI-powered solutions to accelerate your journey to Microsoft Fabric

We offer consulting services in Data & Analytics, Generative AI & Machine Learning, Reporting & Visualization, Application Modernization, Cloud Optimization, and Security. As a Microsoft Fabric Featured Partner and Power BI Partner of the Year 2021, we deliver innovative solutions for Global 2000 companies in the Technology, Retail, Finance, Oil & Energy, and Healthcare industries.

Our extensive portfolio of generative AI and data analytics services includes:

- Migrating existing systems to the Microsoft Fabric ecosystem.

- Elevating customer experiences with Agentic AI solutions.

- Streamlining operations by unifying data & analytics platforms.

- Empowering enterprises with AI-powered real-time intelligence (RTI) to proactively respond to changes and optimize business strategies instantly.

- Implementing enterprise-grade security, in alignment with Microsoft's Secure Future Initiative (SFI), to protect data and applications.

Microsoft Fabric Launch and Featured Partner

1,300+
Certified Microsoft Fabric Analytics engineers (DP-600 and DP-700)

200,000+
Reports migrated from Tableau, Qlik, BOBJ, MicroStrategy, etc. to Power BI

25+
Microsoft Fabric projects

10+
Fabric SaaS accelerators

Our AI-Driven Accelerators and Services

Reduce your time-to-market with our ready-to-deploy solutions.

Microsoft Fabric accelerators

MigrateFAST
Simplify data and reporting platform migration with Microsoft Fabric.

EmbedFAST
Embed Power BI reports into enterprise solutions without writing your own code.

IngestFAST
Accelerate data integration to build seamless analytics platforms quickly and efficiently.

ValidateFAST
Ensure data quality to reduce errors, improve decisions, and maintain compliance.

CertyFAST
Make Power BI reports reliable and adhere to quality standards.

LoadFAST
Optimize Power BI infrastructure capacity and report performance to reduce costs.

Other accelerators

AI-DataLens
Unlock data-driven insights with AI-powered conversational analytics.

Smart support framework
Create an intelligent support system to efficiently route tickets.

Chatbots
Develop secure, enterprise-grade GPT models for extracting precise insights.

Copilot for Power BI Embedded
Enable personalized, conversational data experiences in Power BI Embedded reports.

Deep Knowledge of Microsoft Fabric

- Migrated 100+ data models from platforms like Snowflake, Teradata, and Synapse to Fabric.

- Used Fabric's Real-Time Intelligence to replace batch processing, reducing data latency by 90%.

- Implemented a real-time Track-and-Trace system, optimizing 18,000 delivery routes.

- Centralized data management for a client's 160+ customers, lowering their operational costs.

11 Microsoft Specializations

- AI Platform on Microsoft Azure

- Analytics on Microsoft Azure

- Build AI Apps on Microsoft Azure

- Data Warehouse Migration to Microsoft Azure

- Accelerate Developer Productivity with Microsoft Azure

- Kubernetes on Microsoft Azure

- Migrate Enterprise Applications to Microsoft Azure

- Business Intelligence

- Low Code Application   Development

- Cloud Security

- Threat Protection

Agentic AI Solutions

- Developed an AI-powered Event Assistant to streamline event management for 250K attendees by automating schedules, registrations, and inquiries in real-time.

- Built a personalized marketing campaign tool, reducing content creation time by 45%.

- Digitized invoice processing, transforming unstructured PDFs and images into a system with accurate data extraction and structured storage to generate actionable insights.

- Created a Sales Assistant to offer 24/7 customer support by handling inquiries and taking direct actions upon user request.
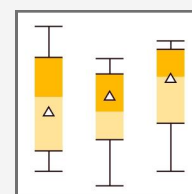

Migration, Reporting, and Visualizations

- Migrated 75,000+ reports to Power BI from Tableau, MicroStrategy, Cognos, BOBJ, etc.

- Migrated platforms from Snowflake, Teradata, and Synapse to Fabric with minimal disruptions.

- Supported Fabric/Power BI migration planning with feasibility assessments to optimize budgets.

- Enabled data-driven decisions with 100K+ dashboards, 40+ AI visuals, and 3.5M+ downloads as the top Power BI visuals supplier.
